Leroy:

Do you think that Guy or Greg can finish up the VB607/641 to get this off-site by next Tuesday? I really would like to get this off site.

Thanks

Gary,

Everything but VB607/641 and the roll-offs should be good to go. Unfortunately I wasn't able to get either of these streams to the point that we can ship before Thanksgiving. On a brighter note I do have the State Waste Code for FT1004 so just as soon as you have the report from the lab we should be able to ship. I have included the profile for signature however if you'd rather hold off until you have the final report I understand. We will need to put a short memo together discussing the analysis that was run and the reason for dropping the D032 waste code. Let me know if we need to discuss further. My boss Greg Norden is available should you have any questions the rest of this week. His number 419-348-4621. Guy Gallelo will also be in the office his number is 419-429-5521. Have a great Thanksgiving!!

Thanks,

Beth Crawford
